

### **REMARKS**

Claims 1-20 remain pending in the present application. Claims 1 and 11 have been amended. Basis for the amendments can be found throughout the specification, claims and drawings as originally filed.

### **DRAWINGS**

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5). The drawings have been amended to overcome the objection. Withdrawal of the objection is respectfully requested.

### **REJECTION UNDER 35 U.S.C. § 102**

Claims 1-20 are rejected under 35 U.S.C. § 102(b) as being anticipated by Kato, et al. Claims 1 and 11 have been amended to define the valve disc as being movable between a first position where the valve disc contacts the first and second lands and forms a clearance with the entire support surface and a second position where the valve disc contacts the first and second lands and the support surface.

Kato, et al. in Figure 7 illustrates a clearance with a portion of the support surface but Kato, et al. cannot be moved to a position where the inner and outer lands and the support surface are in contact with each other.

Thus, Applicants believe Claims 1 and 11, as amended, patentably distinguish over the art of record. Likewise, Claims 2-10, which ultimately depend from Claim 1, and Claims 12-20, which ultimately depend from Claim 11, are also believed to

patentably distinguish over the art of record. Reconsideration of the rejection is respectfully requested.

#### **CONCLUSION**

It is believed that all of the stated grounds of rejection have been properly traversed, accommodated, or rendered moot. Applicants therefore respectfully request that the Examiner reconsider and withdraw all presently outstanding rejections. It is believed that a full and complete response has been made to the outstanding Office Action, and as such, the present application is in condition for allowance. Thus, prompt and favorable consideration of this amendment is respectfully requested. If the Examiner believes that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at (248) 641-1600.

Respectfully submitted,

Dated: November 11, 2004
